

## 1. Specification

|             |                              |
|-------------|------------------------------|
| Power       | 100W-1200W-1400W-1600W-1800W |
| Capacity    | 2.0m <sup>3</sup> /h         |
| Weight      | 76kg                         |
| Pressure    | 18-25Kpa                     |
| Power Input | 200-300W                     |
| Length      | 5M                           |

## 2. Features

• 100% Efficient  
• 100% Energy Saving  
• 100% Safe  
• 100% Durable  
• 100% Reliable

## 3. Packing

|                    |                 |       |
|--------------------|-----------------|-------|
| Product Size (mm)  | 380 * 262 * 247 |       |
| Product Size (mm)  | 440 * 310 * 285 |       |
| Product Size (PCS) |                 |       |
| 20'GP              | 40'GP           | 40'HC |
| 750                | 1500            | 1700  |
